

1-2-3 Draw CARTOON ALIENS and Space Stuff

A step-by-step Guide By Steve Barr

This book is dedicated to my
friend Nora Smith, who always
makes me laugh and loves books!

—S.B.

Before you begin...

You will need the following supplies:

1. A pencil (or pencils!)
2. An eraser
3. A pencil sharpener
4. LOTS of paper
5. Colored pencils, markers or crayons
6. A good light source
7. A comfortable place to draw
8. Your imagination!

Are you ready?
Let's draw!

No rules!

One of the most fun things about drawing cartoons is that there are NO RULES! Cartoons are just simple drawings using basic shapes and lines to create a funny picture. Cartoons are meant to make people laugh or smile. The sillier your cartoon looks the better.

When I was young, I spent hours sketching and doodling, and drawing cartoons. I got so good that I get paid to draw cartoons now. In this book you will learn how to draw really cool aliens and space stuff. You will be surprised at how easy it is to do once you start drawing.

Sketch, doodle, play!

Have fun. Experiment! If I tell you to draw a circle and you feel like drawing a square or a triangle, draw whatever you want. Make your very own creation. Change anything you want. Color your cartoon any color you wish. Create your own cartoon style. Draw to entertain your friends and family, and one day you may end up getting paid to do it too!

Cartooning Tips:

- 1** Draw lightly at first — SKETCH, so you can erase extra lines.
- 2** Practice, practice, practice! You will get better and your cartoons will get funnier.
- 3** Have fun cartooning!

Basic Shapes and Lines

Here are some of the simple shapes and lines you will use to draw cartoon aliens:

Oval

Circle

Egg

Rectangle

Square

Triangle

straight line

squiggly line

curved line

Remember to draw lightly at first. You will be erasing some of the lines when you complete the final drawing.

Alien head

Side view

Let's start by drawing just the head of an alien. A little later in this book, I will show you how to add the body. Since none of us really knows what an alien looks like, let's use our imagination and draw aliens that we would like to meet.

1 Sketch a big **oval** for the head. Sketch two smaller **ovals** for the nose and eye.

2 Draw a small **oval** inside the eye. Sketch an overlapping **oval** for the ear.

3 Darken part of the eye. Draw a small **curved line** for a smiling mouth. Sketch another **oval** on the ear.

4 Add a **curved line** to the mouth. Draw a slightly **curved line** inside the ear.

5 Draw four *straight lines* to begin his antenna. Add another *curved line* to the alien's mouth.

6 Add a *circle* to the end of the antenna. Draw another *curved line* inside his mouth.

7 LOOK at the final drawing! Erase extra sketch lines you don't need. Darken the final lines. Add color. Add *triangles* or *squares* or any fun features you wish.

Adorable alien!

GREAT JOB!

Sign your name and put today's date on your work. It lets everyone know you drew it!

Alien head

(front view)

Let's draw an alien looking right at you.

- 1 Lightly sketch three overlapping ovals, for the head and ears.

- 2 Draw a small oval on top of each ear oval.

- 3 Draw two small ovals for the eyes and a larger one for the nose.

4 Add a small **oval** inside each eye. Draw a **curved line** for his mouth.

5 Darken in part of the eyes. Add a **curved line** to each side of his mouth.

6 Draw two **straight lines** on the top of his head, to begin the antenna. Draw a **curved line** inside each of the ears.

- 7** Add two slightly curved lines and a circle to the complete the antenna.

- 8** LOOK at the final drawing! Erase extra sketch lines. Darken the final lines. Add color.

WOW!!!

Experiment with colors and shapes to see how different you can make him look.

Alien expressions

You can bring your alien to life by drawing different expressions to show how he is feeling. Here are some examples of facial expressions you can easily draw with simple shapes and lines. LOOK closely at the different expressions shown below. Can you see the simple shapes and lines that are used to show what mood he is in?

Start with a sketch of the outline of the alien's head.

Sketch your favorite expressions a few times and then try to create a new expression of your own.

Contents

Alien expressions (front view)

LOOK carefully at the different expressions shown below. See the shapes and lines that are used to create the different moods.

Draw the outline of the alien's head from the front.

Now draw three or four of the expressions you see.

Experiment! Using different shapes, see what expressions you can create!

Alien

(side view)

Let's draw a complete alien—head to toe.

- 1 Sketch the side view of the alien's head. (See page 7 for details.)
Make sure you leave enough room on the paper to draw the body under the head.

- 2 Sketch an oval for the body and another one for a foot.

3 Sketch an oval for the arm. Draw a curved line for the other foot.

4 Sketch three small ovals for fingers. Draw squiggly lines on the bottom of his feet.

5 Draw *curved lines* across his feet.

6 Draw two *straight lines* with a *circle* on the end for his left arm and hand.

Thanks for checking out this free download sample of 1-2-3 Draw Cartoon Aliens and Space Stuff! If you like what see, and want to get the entire ebook, you'll find it very reasonably priced at
